

II-VI Code of Ethics and Supplier Responsibilities

At II-VI it is each employee's responsibility to exercise sound business judgment and to act honestly and ethically. We are required not only to "do the job," but to "do it the right way." Doing it the right way goes past complying with laws and regulations. It means conducting ourselves with ethics and integrity in all that we do. Our Code of Ethics combines the values and standards of behavior that make II-VI a trusted and respected organization.

As such, we expect the same level of ethics, integrity and social responsibility from our Suppliers. Working together, we must meet the highest standards of business excellence that our customers expect from us.
